

Drink Dispensing Counter

Ajinkya Multiple Drink Dispensing Counters are specially designed for Drink Vending Machines. It has unmatched features like

FEATURES

- Microcontroller based Highly Reliable Circuitry.
- LCD screen with all counts displayed at a time. No need of keyboard avoiding servicing problems.
- Supports THREE volumes for dispensing.
- Supports Four to Six drinks.
- Three independent 'Start' switches for three volumes.
- Auto mode to set timings. Finer adjustments can be done from keyboard.
- Lock to avoid unauthorized person access

These counters are used along with Coca Cola and Pepsi Cola drink dispensing machines in India which supports Six and Four drinks respectively. They are installed in public places like Railway Stations, Airports and Theatres with preprogrammed setup for three different volumes.

User can push the required volume button and the required amount of drink is dispensed with. The counter keeps track of number of drinks dispensed. External lock avoids unauthorized person fiddling with the counter.
